Introduction

The CCOHS legislation monthly report helps you track the legislative changes occurring in Canadian jurisdictions up to June 2007. To assist you in tracking changes to this report from the previous month, the new text will appear in purple. Information contained in this report is restricted to environmental/health and safety legislation that is either available in the Canadian enviroOSH Legislation series or represents new items. We welcome your comments on this service. You can contact us at clientservices@ccohs.ca

Each jurisdiction contains information on the following:

1. Legislation in progress/proposed

1A. Acts

Contains the names of current federal, provincial and territorial bills relevant to the

Canadian enviroOSH Legislation series. It is updated monthly. All bills are removed at the conclusion of a parliamentary session and a new series begins.

Note: If a bill has reached "Royal assent" this does not necessarily mean it is in force (effective). The notation NIF indicated Not in Force (i.e. will be proclaimed later).

Internet addresses containing proposed bills have been provided for those jurisdictions which supply this information. Please note that the bills are not official versions and that "first reading" bills may be amended.

1B. Regulations

List of proposals for amendments to current regulations or for new regulations. Some items may represent officially gazetted regulations which have yet to come into force. Summaries are included where available.

2. Amendments

Contains information about amendments which have come into force between May and June 2007. These amendments have been incorporated in the respective legislation by CCOHS staff. They will appear on subsequent issues of the Canadian enviroOSH Legislation.

3. Repealed Legislation

Lists documents repealed by the respective jurisdictions and removed from the Canadian enviroOSH Legislation series as of June 2007. The title of the repealed legislation is given and, in the case of regulations, the authority under which they were made (Governing Act).

4. New documents for the 2007-3 Issue of the Canadian enviroOSH Legislation CD

Documents that will be on the 2007-3 Issue of the Canadian enviroOSH Legislation CD-ROM series. Please note that some items represent previously existing legislation to increase comprehensiveness while others are newly enacted legislation. Information is presented under the respective jurisdiction as follows: Title of the document, Governing Act (if necessary), and citation.
